

OPERATORS NOT SATISFIED WITH NEW COAL CODE

Non-Union Mine Owners May Terminate All Negotiations

By James P. Selva
Washington, Sept. 8.—(AP)—Dis-satisfaction with the bituminous coal code drafted by Hugh S. Johnson, the NRA chief, has become so strong today that a termination of the negotiations by non-union operators was being discussed privately.

Given until tomorrow to file any objections, the operators today sent the administrator a letter asserting, in effect, that there were so many points of opposition that an attempt to itemize them would be useless.

They were called into immediate conference by Johnson and upon the outcome of the conference was said to depend the continuance of the negotiations, with one operator saying flatly that his group, representing a large segment of the soft coal fields, might not enter the public hearing for Monday.

In making the code public yesterday, after the operators and spokesmen for the United States Mine Workers of America had spent weeks seeking an accord, Johnson said flatly to newspapermen the charter would go to the public hearing next week, substantially unchanged.

He expressed confidence then that the general agreement upon it would be obtained, but added that he was ready to "unpose" the code if necessary.

President Roosevelt entered the fight for an agreement Wednesday night in a conference with the operators and John L. Lewis, president of the mine workers union, and he was reported to be backing Johnson in his insistence upon the code.

The labor provisions of the charter furnished one of the principal stumbling blocks, and there were strong indications that the industrial advisory board of the NRA, headed by Walter C. Teague, was in a hand.

A lengthy joint meeting with the labor advisory board was held last night at which a basis of agreement on what constitutes collective bargaining for labor was canvassed thoroughly. While no statement was forthcoming from the board, it was understood that no agreement was reached, and another session was called for next week.

The industrial board, speaking for many industries, still is insisting upon the inclusion of a provision in the code which permits the handling of workers on a merit system without regard to union or non-union affiliation. Both Johnson and President Roosevelt, who approved the interpretive language for the auto code, have been recorded against such provisions in future codes.

The coal controversy sprang back directly into the NRA foreground a few hours after price-fixing had been thrust forward by the administrator, which went on record as opposed to the principle except in rare instances.

Arthur D. Whiteside, a deputy administrator, was completing the draft of a charter for retailers containing ample provision for regulating prices and preventing sales below cost.

Whiteside was understood to be drafting his final report to Johnson and officials expected the charter, designed to reach several million workers to be ready for President Roosevelt early next week.

While the deputy was keeping the provisions of the code carefully guarded, it was understood still to contain a ban against ruthless price-cutting, and to prescribe strict trade practices and advertising rules.

ARREST SUSPECTS

Murphyboro, Ill., Sept. 8.—(AP)—Will Clemens, and Martin Carter, both of Murphyboro, were in Jackson County Jail today charged in a federal complaint with having passed counterfeit half dollars.

Officers raided the home of Clemens and found counterfeit equipment, but no counterfeit coins. Clemens was also charged with passing lightning rods by tapping a gas main at his home.

near the island. If Washington learns
that Communists are about to get the
upper hand, they will probably get it
chance to get shot American soldiers,
for if there is one thing we do not
want in Cuba, it is communism.

Such a calamity would bring the
Russian form of government too close
to American shores. It is not the in-
tention of this government to let the
Reds get a foothold in the western
world. Cuba must not be an entering
wedge for the communists. Radical-
ism of this type has no place in new
world politics.

It is hoped it will not be necessary
to intervene in Cuba. Such a move
might be wrongly construed at this
time, inasmuch as Washington has
disapproved the conduct of Japan in
Manchuria and China. Yet the situa-
tions are entirely different. Cuba is
an American protectorate, and the
constitution gives the United States
the right to intervene when things are
not going right. We have obligations
in Cuba we cannot shirk. We estab-
lished constitutional government there
after liberating the island from Span-
ish rule, and we have a right to see
that law and order and the rights of
the Cuban people are respected.

WILL ROGERS says:

To the Editor of the
Journal-Courier:
Beverly Hills, Calif., Sept. 8.—Most
of us had the impression that the late
war was started all at once, by
Germany deciding it would be a good
time to go through Belgium, well do
know that this fellow that died
yesterday, this Englishman Viscount
Grey, who at that time was Britain's
foreign secretary, well according to all
official records that have been pub-
lished, they had had dozens of con-
ferences, and communications, among
all these nations, for weeks, (also read
Col. House's books), so according to all
the dope, this fellow Grey had quite a
time arranging the war. It looked for
awhile like he wasn't going to be able
to put it on. Now I see where Lloyd
George's book says the same thing.
It's a hard job to get into a war with-
out a diplomat.

Cuba And Communism
Cuban communists, it is rumored,
will fire on American soldiers if they
land on the island, and will thus pro-
voke bloodshed to prove that Cuba is
an American colony. If it is necessary
to intervene in the Cuban situation,
Uncle Sam must be careful. Com-
munists would like nothing better
than to start trouble, and to make
this country ridiculous in the eyes of
the world.

But it is the fear that radicals will
get control of Cuba that inspires the
government to concentrate forces

**LOUIS ROEGGE
DIES THURSDAY
AT BEARDSTOWN**
Beardstown, Sept. 8.—Louis Roegge,
a resident of Beardstown since 1916,
died on his fifty-third birthday
Thursday at his home at 1001 Monroe
street, following an illness of about
three weeks.

Funeral services will be conducted
at 1:30 o'clock Saturday at the resi-
dence, and at 2 o'clock at St. John's
Evangelical Lutheran church with
Rev. Edwin Somer in charge. Inter-
ment will be in the Lutheran ceme-
tery near Arenzville.

Decedent was born near Hagener,
Sept. 7, 1880, the son of Mr. and Mrs.
Herman Roegge. He came to this city
with his parents in 1916 and began
work for the C. B. & Q. railroad com-
pany as a car shop employee. In 1922
he accepted a position at the Frey
Hardware store here, working in that
store for ten years until 1932. He
is survived by the following brothers
and sisters: John, Beardstown;
Charles, Arenzville; Henry, Bluffs;
Mrs. G. W. Fricke, Corder, Mo.; Miss
Emelia, with whom he made his home
here, and Theodore, also of this city.

**SISTER OF LOCAL
RESIDENT PASSES
AWAY IN DECATUR**
Mrs. G. W. Cooper of this city has
received word of the death of her
sister, Mrs. Ora Thompson, which oc-
curred Friday morning at her home in
Decatur. Death was the result of a
stroke of paralysis Mrs. Thompson
suffered two weeks ago.

Decedent is survived by her hus-
band, John M. Thompson, and one
daughter, Melba. She also leaves the
following brothers: Benjamin Blass of
New York and Thomas Blass of Deca-
tur, and Harry Gordon of Chicago.
She leaves a host of friends here and
in Decatur.

Funeral arrangements will be an-
nounced later.

HERE FROM SOUTH
Mr. and Mrs. C. V. Cox of Mount
Olive, Miss. have arrived here for an
extended visit with relatives. Mrs.
Cox is a daughter of Mr. and Mrs. J.
W. Strawn, northeast of the city.

DR. E. L. TOBIE IS CLOSING WORK AS DISTRICT LEADER

Dr. Edwin L. Tobie, former pastor of
Centenary church, is closing his work
as superintendent of the Champaign
district and will receive an appoint-
ment as a regular pastor when the
Illinois conference holds its annual
session here next week. It is not
known yet where Dr. Tobie will be
located, but so successful has been his
work as district superintendent that it
is likely he will be given the pastorate
of one of the larger churches in the
conference.

The "Champaign District Bulletin"
has the following to say in apprecia-
tion of Dr. Tobie's work for six years
as superintendent. During the past
year the district has included 120
charges:

"Thus endeth six years of service
—years fraught with activity, arising
out of three changes in the Champaign
district territorial lines, in which the
number of new churches more than
equals the old; of three periods of
bank failures and the successful
weathering of the storm. Twice Dr.
Tobie was selected as a delegate from
the Illinois Annual Conference to the
General Conference and he was made
Doctor of Divinity by Illinois Wesley-
an University. All of this has come
in addition to the usual duties accom-
panying the office of district superin-
tendent. To him that hath shall be
added, namely the opportunity to serve
as vice-president of Wesley Founda-
tion Corporation, which is no mean
task in the days of the great depres-
sion. But no least is the sponsoring
of the Christian Education As-
sociation and its activities.

"To the work of the Christian Educa-
tion Association, as to these other
things, Dr. Tobie has given unstint-
ing, of time, energy and courage. He
has been a man of vision and of un-
flinching will. He has been misunder-
stood, if need be, he has sought to join
evangelism with christian nurture that the
two should march forward together
for the reclamation and energization
of people for christian living. Dr. To-
bie has watered where Dr. A. K.
Byrns, his predecessor, planted the
seed. To the leader who comes is en-
trusted the harvest.

"These words come from a pastor.
Dr. E. L. Tobie, beloved superintendent
of the Champaign District, has,
during the past six years, been tested
by everything but fire and brimstone,
and in all circumstances has shown
himself to be a christian gentleman
and a brother. Coming on the Dis-
trict when the well-known depression
was just taking under way, his admin-
istration has been loaded with finan-
cial perplexities, confused Official
Boards and preachers who couldn't
make ends meet. In it all he has been
patient, kindly and wise and many a
person can thank him for the saving
of the day in some critical situation.
These words come from a layman.

"His ability, his devotion and his un-
flinching energy in the work has pro-
duced fine results for the Kingdom. His
courtesy and consideration have been
an inspiration and a great help to
those who have been privileged to
serve under him."

"The Champaign District, in Mrs.
Tobie, has had a leader who has
served without recognition, but one
diligent in season and out of season—
ever ready to greet callers cheer-
fully or listen to tales of hardship
or joy. Her courage and spirit have
been a constant source of inspiration
and challenge.

"To the unknown leaders who come
to take the place, for six years held by
Dr. and Mrs. Edwin L. Tobie, greet-
ings and good wishes are extended
and it is hoped that they, too, will
find the same fine spirit of fellowship
and cooperation."

SPIRITUALISM IS BOGUS, SAYS MAGI AT FOX-ILLINOIS

Harry Blackstone, who heads his
own big magic show at the Fox-Il-
linois, is a sworn enemy of that pre-
datory clan coming under the gen-
eral head of spiritualists. At various
times he has led crusades against the
charlatans who trick and rob the
credulous.

Blackstone does not wear silken
gloves when he goes after the gen-
try. In speaking of the quacks, the magi-
cian said recently:

"In the last quarter century I have
met and talked to all the better
known so-called mediums and spiri-
tualists, mind readers and spiritual
advisers.

"So that I might fully understand
the methods of palmists and mind
readers, I have been a professional
palmist and mind reader. I have even
worked behind the scenes in the
'spook houses'.

"They are all frauds. It's almost
impossible to make the public realize
they are frauds, but I'll pay a good
money forfeit if I cannot prove it
definitely.

"It is a truth easily proved, in a
day if you wish, that fortune tellers
are hanging out their shingles in all
the larger cities and before they do
they carefully study the names, pic-
tures and histories of the more promi-
nent citizens. So soon as they learn
that a person is interested in palm-
istry or whatever form of trickery
they practice, they learn as much as
they can about that particular per-
son.

"Palmists resort to all sorts of
tricks. They have mirrors, speaking
tubes and code signals.

"Every act of the nature about
which I speak is based upon a trick—
clever, yes. But so is any feat of
magic.

"The same holds about table tip-
pling. I'll make a table shimmy all
over the place whenever you say the
word. Yes, I'll do it with your table
and I'll do it in a fully lighted room.

"A magician performing tricks on
the stage is one thing. He is only
endeavoring to entertain you by de-
ceiving you. Nothing serious can de-
velop. But a medium, so-called, or a
spiritualist, claiming they can deliver
messages from the dead relatives of
the living and taking money for it, is
a criminal—he is a menace and the
sooner that breed is stamped out, the
better.

LIFE IS SHORT FOR FAT FOLKS

Fat May Be Fatal

Overweight is fatal not only to beauty, charm and popularity but it's injurious to health as well. Insurance companies repeatedly warn against its dangers. It goes without saying how fat robs you of energy, how internal organs grow lax and slow down under the burden—how unnecessary strain is often put on the fat covered heart. High blood pressure, rheumatism, acidity, indigestion and fatigue are more frequently found where obesity is present.

If you want to feel fine and physically fit all the time—look younger and live longer—start today and banish burdensome fat with this healthful "little daily drink" prescribed by physicians. Simply take a half "careful of Kruschen Salts in a glass of hot or cold water first thing every morning. You'll probably feel better and more energetic than you have in years.

An inexpensive jar lasts 4 weeks and is sold by Long's Pharmacy and druggists throughout the world. If this first jar doesn't joyfully start you on the road to slenderness and better health—money back. For your health's sake—make sure you get Kruschen—it's the SAFE way to reduce. (adv.)

DIXIE DUGAN

Sad Indeed By J. P. McEVROY and J. H. STRIEBEL

**FOR THE LOVE OF EVE**

By Lucy Walling

AND then Atlas Coupler began to recede. The first day's slump of two points did not disturb Eve. Why, she thought, Pure Soap, Inc., had done that often in the short time she had had her holding. Even four days of decline did not frighten her because she had enormous faith in the issue. Charles, the office boy, had instructions from Eve to wait at the corner each day until the stock edition newspapers made their appearance and then to bring her a copy with out delay. Arlene, tense and nervous, could scarcely wait until Eve handed the paper to her. Because of Miss Allen, the two girls had to assume a nonchalance they by no means felt.

Now Atlas Coupler was down 13 points and Eve wondered what would happen next. Each time it dropped Arlene figured her loss in terms of what she would have purchased had she not invested her money.

"There goes that Agnes hat I craved!" she said first. Then, "There goes that new three-quarter length lapin coat I counted on."

Later, "My word, I've lost my trip to Georgian Bay today." And finally, "Gracious, I've lost a year's supply of shoes! I'll have to come to the store dressed like a native of Borneo."

Eve was glad Arlene took her losses so good-naturedly. She felt responsible. Atlas Coupler would surely recover within a few days, she felt, and then her fears would prove themselves groundless.

But Atlas Coupler did not recover. Eve was in conference with Earle Barnes at 10 o'clock one morning the following week. The advertising manager's telephone rang and, with a frown of annoyance, he lifted the receiver and clipped a brief "yes."

"It's for you," he said, handing the instrument to Eve.

"Sloan and Sanford Company speaking," boomed a stern, masculine voice. "Atlas Coupler has reached a new low and to all appearances is going lower. We must be in position to know that you will cover your interest in the stock."

"I'll be in this noon to cover my interest," she promised.

Barnes looked at her quizzically. No doubt he was curious about what had happened, Eve thought, but so long as she did her work satisfactorily she did not feel that she owed him any information concerning her personal affairs.

Eve's face blanched to the lips. Barnes must have heard, because the voice over the wire carried so clearly.

"What do you advise me to do?" "If we can rely on you to send your check for \$200 within the next 24 hours we can keep you on our books. Otherwise we will have to sell your holdings, which will mean a total loss to you."

Eve thought rapidly. Barnes must not get an inkling of this situation.

"I'll be in this noon to cover my interest," she promised.

Barnes looked at her quizzically. No doubt he was curious about what had happened, Eve thought, but so long as she did her work satisfactorily she did not feel that she owed him any information concerning her personal affairs.

Eve entered the revolving door of the bank. And then she saw him! Dick's face lighted with a glad smile but Eve's froze in horror. It was not because he was smoking his old briar pipe in a nonchalant manner. Here, in the midst of hurrying, well-groomed men and women, Dick had the temerity to be wearing his old slouch hat, baggy trousers and blue flannel shirt. And his coat had a streak of paint on one sleeve. What was more, he seemed entirely unconscious of his shocking appearance and was coming toward her.

"Dick!" Eve reproached him. "I didn't dream you'd come down in those old clothes!"

"Well," he said sadly, "there was concrete to pour today so I didn't wear my tuxedo to work. Any how I didn't have time to go home to change."

DR. ANDERSON TO TEACH RELIGION AT MACMURRAY

New Member of MacMurray Faculty Comes Here From Brooklyn

President McClelland has announced another addition to the faculty of MacMurray college for the coming year. Dr. Paul Russell Anderson has been engaged to teach Philosophy and Religion. Dr. Anderson is a relatively young man. He graduated from Ohio Wesleyan University in 1928 and for two years thereafter taught at the American University of Beirut, in Syria. Besides teaching Bible there, he worked under Dr. Stuart C. Dodd, professor of Sociology on a Rockefeller grant. They spent considerable time making a survey trip through Iraq and Persia, studying the desert life in northern Arabia. He assisted Professor Dodd in the preparation of a volume published under the title of "Social Relationship in the Near East."

For the past two years Dr. Anderson has been assistant minister of the Flatbush Congregational Church in Brooklyn, the fourth largest Congregational church in America, and has headed their board of religious education. At the same time he has been studying at Union Theological Seminary in Columbia University, having received the degree of Doctor of Philosophy from the latter institution this summer. His book, "Science in Defense of Liberal Religion," is being published by G. P. Putnam's Sons and will be out October 15.

As an undergraduate at Ohio Wesleyan, Dr. Anderson was a leader in all student activities. He was particularly prominent in debate, having been on the varsity debate team for three years. He is a member of Phi Beta Kappa, Sigma Chi, Phi Kappa Phi, Omicron Delta Kappa, Delta Sigma Rho, and Pi Delta Epsilon. He will assist in the public speaking department at MacMurray.

Professor Harold E. Luecock, of Yale University divinity school, has written of Dr. Anderson as follows: "I have known Mr. Paul Anderson intimately for fifteen years, and I can give with the utmost confidence my enthusiastic appreciation of Mr. Anderson as a man of the highest moral character and thoroughly attractive personality. He is very good and kind, and is a man of the finest culture and general education. I feel sure that Mr. Anderson would make enormous asset to the teaching force of any college."

ACT TO CLEAR PIKE RIGHT-OF-WAY

Pittsfield, Ill., Sept. 8.—State's Attorney Merrill Johnston acting under special appointment as assistant attorney general, has advised the approval of the bill for the right of way to clear up the right of way for State Route 100 between Milton and Pearl, the hearing being set for October 2.

All of the right of way in this gap has been secured, except for two tracts, through the George Roberts farm and the farm owned by the heirs of John Peacock, deceased. Only these two pieces of land are needed to clear the entire strip, but the suit has 29 defendants. Minor heirs, mortgages and tenants comprise the list of defendants.

Word comes from Springfield that the grading contract can now be let since the right of way is complete except for these two tracts, and the condemnation suit has been started. It is believed that this contract will be awarded early today, as the controversy through which the route goes, makes heavy grading, through much rock formation, and work can be successfully carried on all winter. This contract would do much toward helping the unemployment situation in Pike county, the coming fall and winter.

Couple Is Wed.
